

PROJECT DETAILS

Customer: Consell Comarcal del Segrià

Location: Montoliu de Lleida, Spain

Year: 2010

Sector: MSW landfills, Waste management, Container recycling, PET recycling and biogas plants

Division: Industrial wastewater

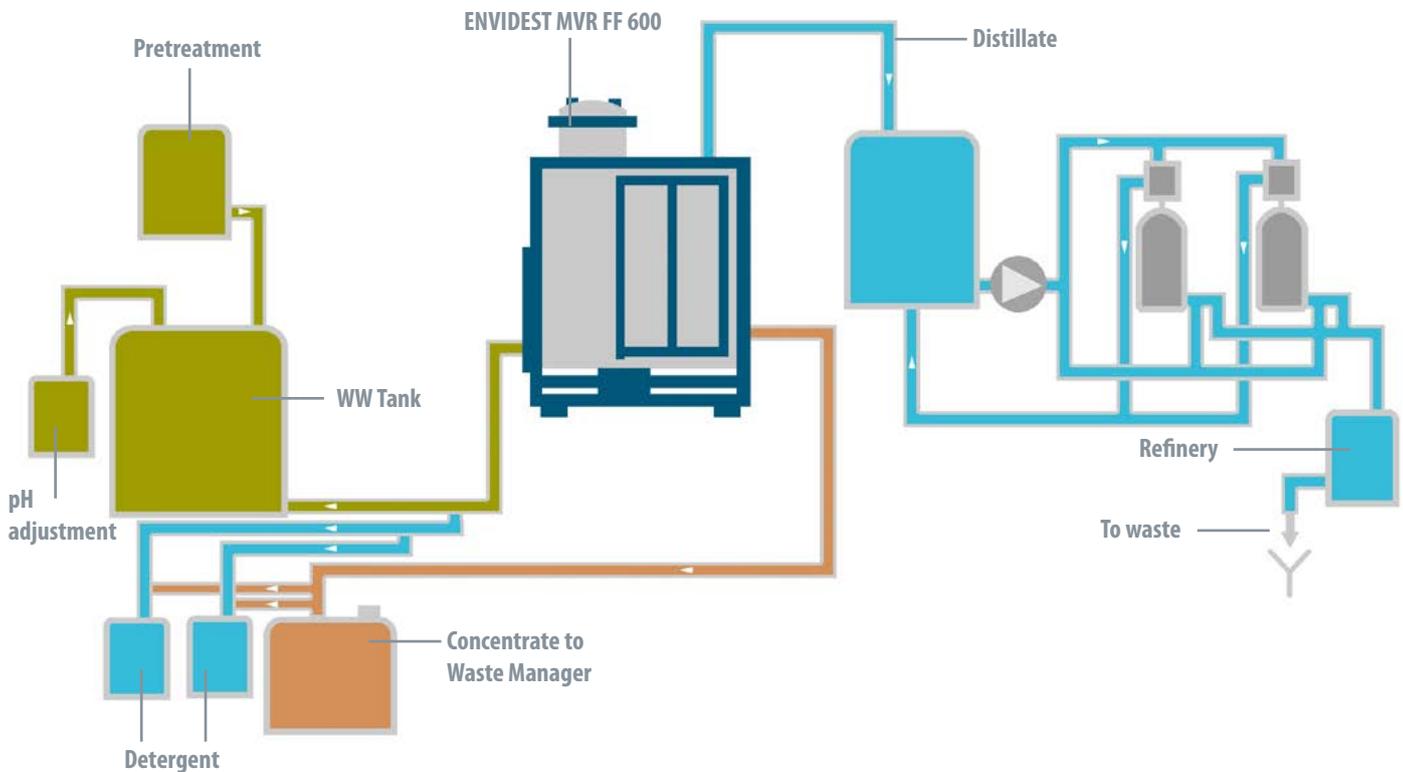

**condorchem
envitech**

PROJECT DESCRIPTION

The services developed by the Environment area of Segrià Regional Council are mainly the joint management of municipal waste, environmental licensing and the civil protection service.

Request: Public tender for a system to treat 12 m³/day of concentrate from the reverse osmosis treatment of leachate from the controlled municipal waste deposit in Montoliu de Lleida, Segrià.

Solution: Supply of a complete treatment plant of ENVIDEST MVR FF 600 vacuum evaporation with mechanical vapor compression system + decarbonation pre-treatment + post-treatment of degassing of volatiles and refining of the organic load with activated carbon.

RESULTS

Discharge to collector to be within the limits required.
