

PROJECT DETAILS

Customer: Ros Roca Envirotec - Biogasanlage Ramstein

Location: Ramstein, Germany

Year: 2011

Sector: MSW landfills, Waste management, Container recycling, PET recycling and biogas plants

Division: Air

**condorchem
envitech**

PROJECT DESCRIPTION

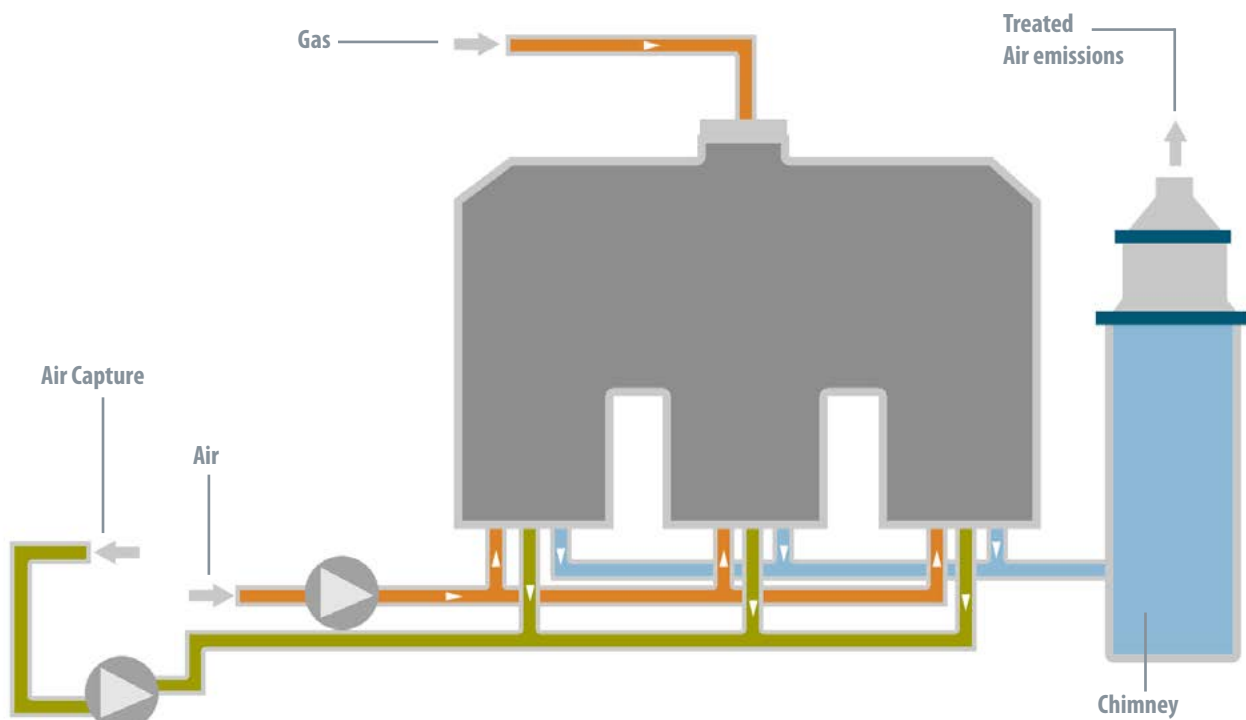

Ros Roca focuses its business on manufacturing equipment for waste collection and management. It also designs and develops environmental engineering systems and processes.

Other projects for ROS ROCA ENVIROTEC:

- 7 more biogas plants in Germany with RTO for biogas upgrading, with flows of 2,400 4,000 Nm³/h.

Request: Treatment of 2,400 Nm³/h of emissions with impurities from upgrading biogas produced from a livestock waste plant. Upgrading is a technique consisting of concentrating and purifying the methane in biogas so it reaches the proportions present in natural gas and has high energy potential.

Solution: Complete air purification plant with RTO-3, 3-chamber regenerative thermal oxidizer and its peripherals.

RESULTS

Emissions to the atmosphere in accordance with the German regulations limit.
